pull request #01

The Reviewed Theme for Beamer #01

Open **[Your Name]** wants to merge into `talk:main`

Slides that read like a code review

Conversation Commits Checks Files changed

- ✓ **All checks have passed**
- ✓ Motivation is clear
- ✓ Results are reproducible
- ✓ Slides compile cleanly

commits · section 01

Getting started

1 file changed, + insertions, - deletions

Using the theme

Load the theme and set your metadata in the preamble:

preamble.tex

```
\documentclass[aspectratio=169]{beamer}
\usetheme{Reviewed}
\title{...}  \author{...}  \institute{...}  \date{\today}
\prnumber{01}
\prchecks{Motivation is clear}{Results are reproducible}{Slides compile
    cleanly}
```

Start the document with `\titleframe` and compile with **XeLaTeX** twice.

Options at a glance

Flags

Pass as `\usetheme[...]{Reviewed}`: `nosectionpages`, `nocredit`

Special frames

`\titleframe` opens the talk. `\thanksframe{..}{..}` closes it. Section slides appear for every `\section`.

commits · section 02

Review features

1 file changed, + insertions, - deletions

Diffs and review comments

preprocess.py

```
  X = load_data()
- scaler.fit(X)
- X_tr, X_te = split(scaler.transform(X))
+ X_tr, X_te = split(X)
+ scaler.fit(X_tr)
+ X_te = scaler.transform(X_te)
```

[Your Name] commented

Fit the scaler on training data only, otherwise test statistics leak into training.

✓ **Approved after the fix**

Review summaries

- ✓ Clear problem statement — approved
- 💬 Add a baseline to the results table — comment
- ✗ Fix the axis labels on figure 2 — changes requested
- ✓ Code runs end to end — approved

Status words

Each line carries an icon *and* a word, so the status never depends on colour alone.

commits · section 03

Text and maths

1 file changed, + insertions, - deletions

Lists

- Items use the theme’s bullet
  - Sub-items get a smaller marker
- Alerted text uses the alert colour
- Keep bullets short

1. Enumerate is styled too
2. One idea per slide
3. Let the figure talk

Mathematics

Trapezoidal rule

$$\int_a^b f(x)\,dx \;\approx\; \frac{h}{2}\Big[f(x_0) + 2\sum_{i=1}^{n-1} f(x_i) + f(x_n)\Big]$$

Note

Maths keeps Computer Modern, which pairs well with the text fonts.

commits · section 04

Blocks and overlays

1 file changed, + insertions, - deletions

Blocks

block

Beamer’s own block, restyled.

alertblock

For warnings and pitfalls.

exampleblock

For examples and tips.

Overlays work as usual

- First this

Overlays work as usual

- First this
- Then this

Overlays work as usual

- First this
- Then this
- And finally this

commits · section 05

Tables and figures

1 file changed, + insertions, - deletions

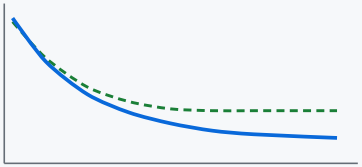

A table

config	time (s)	memory (MB)	speed-up
small	31.3	457	2.8
medium	52.6	946	2.8
large	118.4	2505	3.6

Sample numbers for illustration.

A figure next to text

- Left column carries the story
- Right column holds the figure
- Use `onlytextwidth` to stay inside the margins

Sample curves: train and validation loss

commits · section 06

Closing

1 file changed, + insertions, - deletions

Summary

1. Light review palette with green additions and red deletions
2. PR-style title slide with passing checks and a Merged closing slide
3. `diff` box with `\addline`, `\delline`, `\ctxline`
4. `\reviewcomment`, `\approved` and `\reviewitem`
5. `\titleframe` and `\thanksframe`
